PROFILE

A recent bootcamp graduate with logical and analytical skills actively seeking a career in software development, currently working mostly in front-end programming but eager to learn other languages and experience more server-side programming. I love to learn, be challenged and solve problems.

WORK HISTORY

Junier Software Developer   01/2020 to 04/2020
_Nology - London
A full-time, 12-week Software Developer Course
I gained hands-on experience of coding in multiple programming languages, frameworks and tools. I also received expert professional-skills training, delivered by a team of dedicated career coaches. The course is comprised of projects that are both practical and relevant to today's workplace.

Book-Keeper   09/2014 to 11/2019
Self-Employed - London
Worked as a freelance bookkeeper and provide services such as management accounts, bookkeeping and the preparation and submission of VAT returns.

Junior Account Manager   09/2010 to 02/2012
TURKCELL - Istanbul

- Performed initial client assessment and analysis to begin research process.
- Delivered an exceptional level of service to each client by listening to concerns and answering questions.

Accounting Intern   08/2009 to 01/2010
Turkish Jockey Club - Bursa
Follow-up of the company's cash flow.
Controlling expenses according to the budget.
Issuing and presenting the company's balance sheet.
Proposing solutions to improve financial results.
